

Finding reliable and trustworthy tradespeople can be the tricky part of any home project. Whether it's a quick job or one that might take a bit longer, and while most tradies will always do the right thing, as seniors we should try and ensure we are getting a fair price for the job.

Could be you need help installing a dishwasher, or a new rangehood, maybe to bolt an appliance to the wall, install or service an air-conditioning unit or gas cooktop. Maybe you need your floors sanded or fix a roll-up garage door. You might need some chipped paint removed or repaired, even have a dashcam or car stereo installed.

The **Business Connect Program** is looking to compile a list of tradies that you have used, and you were happy with the finished job for the price charged and are happy to pass their details on.

There are some basic guidelines we recommend when engaging anyone to work in or on our home, and just because someone is on the **Business Connect Trusted Tradie** list, we still need to do some homework and suggest the following questions to help you decide if the tradie is the right one for you. Think about asking:

1. Are they licensed and do they have insurance?
2. Is the quote free, is the price negotiable and what about call-out fees?
3. What does the quote include? Ask for a written copy.

## How It Will Work

Members or their families let the Coordinator know of a tradie they have engaged and you are happy with their work. We are **NOT** asking for an endorsement or recommendation, more to let our members know of local tradies that have done a good job for you at a fair price.

We are looking for details of the following tradies:

- Electricians & Plumbers
- Builders & Painters
- Pool Maintenance
- Gutter Cleaning
- Gardening

Please complete the following details and forward to Jacqui, the Darling Range Hub Coordinator in person or by email to [hello@drseniiorshub.com.au](mailto:hello@drseniiorshub.com.au) The Coordinator will contact you to discuss your recommendation.
